Tax & Fees

Federal Subscriber Line Charge funds part of the cost of providing long distance companies access to local telephone networks. It is applied per line. Federal Universal Service Fee helps keep telephone service affordable for high cost areas, rural health-care providers and library internet access.

E911 Charge funds your community's 911

system. This fee is sent to your state treasury. The Federal Communications Commission (FCC) authorizes the Subscriber line Charge and Universal Service Fee.

Pursuant to the requirements of 35-A.M.R.S.A §7104, during the past quarter year, FairPoint contributed 2.0 percent of its Maine intrastate revenues to the Maine Universal Service Fund.

If you have FairPoint Communications Internet service and your account is past due such that it requires additional collections action by FairPoint including preparing and mailing notices of suspension or disconnection, your account will be subject to a \$6.00 Overdue Payment Collections Fee.

Message to FairPoint Customers

FairPoint Communications recently announced it has entered into a definitive agreement to be acquired by Consolidated Communications with an anticipated transaction closing in mid-2017. Please rest assured that we are committed to delivering outstanding service to you and you can continue to contact us as you do today. We will share additional information when it becomes available.

For additional information about the acquisition, please visit www.FairPoint.com/Consolidated.

Important Information

Effective January 1, 2017, the late payment charge, which may be applied to bills paid after the due date, will increase to a rate of 0.911% per month and the interest rate paid on deposits held by FairPoint as security for telephone bill payment will change to an annual rate of .63%. Both the late payment charge rate and the deposit interest rate are mandated by the Maine Public Utilities Commission.

Important Message Regarding Federal Charges

Effective January 1, 2017, the Federal Subscriber Line Charge may change on residential main and additional telephone lines, single and multi-line business lines, Centrex lines, and ISDN BRI or PRI lines. This charge helps pay for the costs of providing and maintaining the local network. If you receive Lifeline program support, you may also see a change in your local service rate if the Subscriber Line Charge changes.

In addition, your Federal Universal Service Fund (FUSF) surcharge may change effective January 1, 2017. The FUSF surcharge, which is authorized by the FCC and reviewed quarterly, helps fund programs that provide discounts to schools, libraries, rural health care providers and low-income families. This charge is not applied to Lifeline program participants, except for the FUSF surcharge on incidentals.
